Purcell Systems Launches EcoFlex™, New Value-Priced Outdoor Enclosure Family

Monday July 12, 2010 - 07:22 AM EDT
Business Wire News Releases

Released By Purcell Systems Inc.

New Base-Level Series Rounds out Purcell Product Offering, and Provides

Purcell Systems Inc., a leading global designer and manufacturer of modular outdoor enclosure solutions featuring advanced thermal management options, today announced the launch of a new value-priced product family to round out its product line offering. EcoFlex is a low-cost-of-entry, NEMA 3R-rated modular enclosure system with a modular design for applications in telco, utility/energy, cable/MSO and government/military markets.

EcoFlex's key differentiators are linked to Purcell's long-established excellence in thermal management integration and packaging, to provide a complete system-level solution, coupled with industry-recognized excellence in quality and 365/24/7 *Fanatical Service™* and support.

True to the rest of Purcell's product lines, EcoFlex will feature the same advanced thermal management options, including thermoelectric cooling and compartmentalized zone-cooling, in addition to traditional air conditioning, air-to-air heat exchangers and direct-air cooling. EcoFlex also offers options for telco boxes, load centers, generator inlets and battery racks. With a footprint of 30 x 30 inches, the EcoFlex family of outdoor enclosures will be available in four sizes, including 17RU, 25RU, 33RU and
